

International Symposium in JAMIT 2007

Medical Image Analysis and its Application
- Ontology and Context Related
Medical Image Distributed Intelligent Access

July 20, 15:00~17:00, 2007

Chair

Junichi Hasegawa, PhD

School of Life System Science and Technology, Chukyo University

Toshiharu Nakai, ScD

Functional Brain Imaging Lab, National Center for Geriatrics and Gerontology

Speakers

*Semantic Inter-Media Fusion in Medical Image Retrieval for
Diagnosis Assistance. Perspectives for the ONCO-MEDIA project*

Daniel Racoceanu, PhD

Image Processing Application Lab

French National Center for Scientific Research, Singapore / France

The Cutting Edge of GRID Computing

Yoshio Tanaka, PhD

Grid Technology Research Center

National Institute of Advanced Industrial Science and Technology, Japan

Texture Based Medical Image Indexing and Retrieval

Johan Montagnat, PhD

Computer Science, Signals and Systems Laboratory in Sophia Antipolis

French National Center for Scientific Research, France

*Building Grid-Based Applications for the Management and Analysis
of Neuroimaging Data Sets for the Medical Grid*

Epifanio Bagarinao, PhD

Grid Technology Research Center

National Institute of Advanced Industrial Science and Technology, Japan

The medGIFT Project: Perspective of a Medical Doctor

Asmâa Hidki, MD

University Hospitals of Geneva, Medical Informatics Service, Switzerland

26th Annual Meeting of Japanese Society of Medical Imaging Technology
July 20 - 21, 2007 <http://www.jamit.jp/index.html>

Tsukuba International Congress Center 2-20-3, Takezono, Tsukuba, Japan

Sponsored by ONCO-MEDIA Project <http://www.onco-media.com>

NCCG <http://www.medgrid.org>
